About Faculty Development Program

In the evolving landscape of higher education, research output is a crucial component that drives academic excellence, institutional recognition, and professional growth. A Faculty Development Program (FDP) on "Research Methodology" is essential to address several pressing needs within academic communities. FDP on research methodology will help faculty members gain a deeper understanding of various research methods, both qualitative and quantitative. This knowledge is crucial for conducting rigorous and credible research. Increasing pressure to publish in high-impact journals is a significant challenge for faculty members. This FDP will provide them with the tools and strategies to navigate the complexities of research paper submission, peer review, and publication processes.
