About the Webinar

This international webinar aims to explore the transformative potential of digital learning in shaping the future of education. As technology continues to evolve, educators, institutions, and learners must adapt to new paradigms of teaching and learning. This webinar will bring together experts, academicians, and practitioners to discuss innovative strategies, challenges, and best practices in digital education.

Key Sub-Themes:

1. Emerging Technologies in Education – Exploring Artificial intelligence, Virtual Reality, Augmented Reality, and blockchain in education.
2. Bridging the Digital Divide – Addressing disparities to access technology and internet connectivity.
3. Empowering Educators for Digital Transformation – Providing training and tools for educators to enhance digital teaching.

4. Engaging the Digital Learner – Strategies to improve student engagement and motivation in online learning.
5. Cybersecurity and Data Privacy – Ensuring safe and secure digital learning environments.
6. Learning Tools for Educators – Effective use of LMS, EdTech apps, and online resources.
7. Social media/Networking in Educational Contexts – Leveraging social platforms for collaborative learning and academic networking.

Who Should Attend?

- Educators, Teachers and Academic professionals.
- Researchers and students
- EdTech professionals and IT experts
- Policy makers in education

Mode of Participation:

The webinar will be conducted online with expert panel sessions, discussions, keynote speeches, and interactive Q&A sessions. Paper presentations will be held in hybrid mode, both online & offline.
